#### **WORKSHOP 1: The ECI Online Collaborative Platform: Supporting the ECI Community!**

*Following a proposal from the European Parliament, the European Commission is launching an ECI Online Collaborative Platform as a pilot project to offer support and advice on the organisation of European citizens' initiatives. The platform will foster interaction between (potential) organisers, citizen and experts. It will help citizens interested in starting an ECI to learn more about it through best practices, allowing them to discuss EU policies and ECI proposals, to find partners in other countries, to ask advice to experts, prepare campaigns and to exchange experiences. The Commission has entrusted the running of this pilot project to a consortium made up of the European Service Network (ESN), the European Citizen Action Service (ECAS) and CARSA, as part of a contract for services. The aim of this interactive workshop is to present the scope and services of the Online Collaborative Platform and allow participants to test it out in order to provide feedback on the different features.*

*This workshop is organised by the ECAS, one of the members of the consortium in charge of running the Online Collaborative Platform.*

## WORKSHOP 2: Pioneering participation: The Reform of the ECI as a starting point for a more participatory European Union

*Ordinary citizens feel alienated by the Brussels' political process – more than ever before. The Lisbon Treaty aimed to make the EU more democratic. But most Europeans still cannot see how they can become part of EU politics. What can and should the EU do beyond ECI-reform? Which innovative participatory methods would effectively bring the Union closer to its citizens?*

## WORKSHOP 3: ECitizen: Building synergies between the four recent ECIs addressing EU citizenship in order to contribute to deepening the debate on EU citizenship

*The main objectives of the workshop are to promote synergies between the four recent ECIs addressing EU citizenship (Retaining European Citizenship, EU Citizenship for Europeans: United in diversity in spite of ius soli and ius sanguinis, European Free Movement Instrument, More than Education – shaping active and responsible citizens) in order to contribute to expanding the debate on this subject. How can EU citizenship be transformed and what can be done to further streamline this process? Why is it important to rethink its transnational and political dimension? How does Brexit factor into the debate? Will the revision of the ECI have a transformative effect on EU citizens? These questions will guide the debate.*
